Dear Professor Emeritus Petrov, Chair of the Scientific Jury,

Dear Members of the Scientific Jury,

I would like to express my gratitude to all of you for your thorough reading and substantive analysis of the publications and materials I submitted for the competition, as well as for the high assessment you give to my scientific work. The highlights of my research outlined in your reviews and opinions are an important testament to my research work and represent a serious impetus for my future scientific pursuits.

I particularly appreciate the comments, questions, corrections, recommendations, and suggestions, which will provide new directions for my theoretical research and empirical studies in the future. I am grateful for the professionalism, attention, and comprehensiveness with which you have approached all my publications that I am submitting to the competition, but also my various areas of scientific interest in general. The scientific reflections, different points of view, and various aspects that you have highlighted in your reviews and opinions are a strong professional incentive for me to continue working in the field of humanities with dedication and precision. The assessment of highly respected professionals such as yourselves, as well as my membership in the Bulgarian Academy of Sciences, oblige me to continue working at the required professional level and to uphold the high academic standards set.

Expressing once again my gratitude to each of you, esteemed members of the Scientific Jury, I remain available for discussions, academic conversations, and collaboration, through which we can together raise the level and authority of academic life in Bulgaria.
